

What I should already know:

- 1 About some parts of the natural world around me
- 2 Some changes in the natural world through the passing of time.

What I will learn:

- 1 To identify and name a variety of common wild and garden plants
- 2 To describe the structure of common flowering plants and trees
- 3 To understand the structure of a common animal

Working Scientifically Skills:

- 1 Identify and classify
- 2 Make observations over time
- 3 Gather and record data

Common Plants

oak

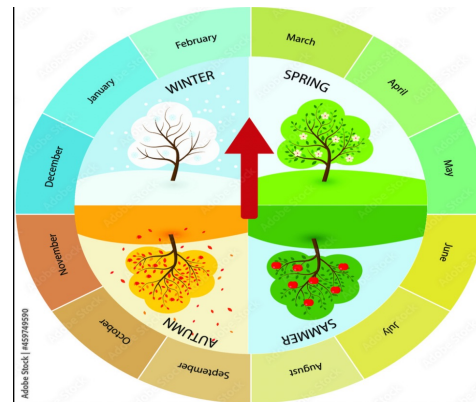

horse chestnut

sycamore

holly

Key Vocabulary:

1	seasons	One of the four periods of the year: spring, summer, autumn, or winter
2	seed	A small, round or oval object produced by a plant. When it is planted, a new plant can grow
3	evergreen	Plants that never lose their leaves
4	deciduous	Trees that shed their leaves once a year
5	stem	The main part of a plant that grows up from the ground.
6	life cycle	A series of stages a living thing goes through in its life.
