

I should already know:

- 1 The eight points of a compass
- 2 How to locate my region using a map
- 3 The importance of sustainability

Reasons for and against regeneration

FOR

AGAINST

Better quality housing

High costs

Creates job opportunities

Loss of local history and sense of community

Improves desirability to new demographics

Damage to natural habitats and wildlife

Improved transport links

Over population and pollution

Enfield Town Fountain

1885

2022

By the end of this unit I will:

Know some of the changes that have happened to London in the last 100 years

Know the plans for the future of my local area.

Be able to use fieldwork to observe, measure and record the changes to the human and physical features in my local area

Be able to explain ways in which development can be sustainable

Understand that people hold differing views about change in their area

Plan of Enfield Town regeneration

Key Vocabulary

borough

a town or urban constituency in Great Britain that sends a member to Parliament

regeneration

regeneration happens when an urban area is upgraded

Olympics

the world's foremost sports competition that includes athletes from all over the world

sustainable

to be able to continue over a period of time

development

any improvement in the standard of living through building and infrastructure

region

an area that has definable characteristics but not always fixed boundaries

community

a group of people living in the same place or having a particular characteristic in common

greenbelt

a green area of land near a town that is protected from being developed
