

I should already know

How to collect data

How to physically record and present data

How to use pictograms, tally charts and bar charts

How to use the j2e tool for voting

By the end of the unit I will:

Write about my earliest memories, interests and hobbies in presentations.

Structure my presentation with headings, subheadings and pictures.

Have recorded a narration for a presentation.

Key Vocabulary

Data

Structured information gathered for analysis, often, but not always, as numbers

Data Centre

Warehouse of computer storage and processing connected to the Internet

Personal Information

Information relating to an identified or identifiable individual to one individual or case

Outline

Overview of a document, showing structure of heading and subheadings

Skills I will develop by the end of the unit:

Create a series of structured presentations

Import pictures and videos to my presentations

Understand some elements of presentation design

Consider issues of trust and privacy when sharing information

Writer.
Easy to use word processor, designed for education.

Spreadsheet.
Easy to use spreadsheet, designed for education.

Present.
Easy to use presentation software, designed for education.
